

CONTENTS

Foreword	xxi
Preface	xxiii
How to Use This Book	xxix
How to Use the CD-ROM	xxxi

SECTION 1

MEDICAL HEALTH CARE ROLES AND RESPONSIBILITIES 1

CHAPTER 1 Health Care Providers 2

UNIT 1 A Brief History of Medicine / 3	
Ancient History	3
Medieval History	7
Early Medical Pioneers	8
Modern Medical Pioneers	9
Controversial Discoveries	13
New Technology	13
The Impact of Government on Health Care	13
The Impact of Consumers on Health Care	14
UNIT 2 The Total Health Care Team / 16	
Allied Health Care Team Members	17
Physician Team Members	20
Subspecialty or Special Interest Areas	21
A Note Regarding Doctors	25

CHAPTER 2 The Medical Assistant 28

UNIT 1 Training, Job Responsibilities, and Employment Opportunities / 29	
Training	31
Job Responsibilities	32
Employment Opportunities	33
Career Laddering	33
UNIT 2 Personal Characteristics / 37	
Highly Desirable Characteristics of Health Care Workers	37
Personality Qualities	39
Perception as a Professional	41

UNIT 3 Professionalism / 42	
How Medical Assisting Began	43
History of Professional Organizations	43
Professionalism	46
AAMA and AMT Examinations	46
Continuing Education	49

CHAPTER 3 Medical Ethics and Liability 51

UNIT 1 Ethical and Legal Responsibilities / 52	
Licensure Requirements	53
Ethical Considerations	53
State and Federal Laws	54
Legal and Ethical Issues	55
The Uniform Anatomical Gift Act	55
Living Will	56
Durable Power of Attorney	56
Accepting or Refusing Treatment	56
Legal Matters	56
Right to Privacy	59
UNIT 2 Professional Liability / 59	
Physician and Patient Rights	60
Medical Assistant Rights	61
Negligence	61
Medical Records	63
Health Insurance Portability and Accountability Act of 1996	65

CHAPTER 4 Professional Communications 67

UNIT 1 Verbal and Nonverbal Messages / 68	
Perception	70
Body Language	70
UNIT 2 Behavioral Adjustments / 72	
Defense Mechanisms	73
Problem Solving	74
Mental and Emotional Status Influencing Behaviors	75
Communicating Emotional States	75
UNIT 3 Patients and Their Families / 76	
Right to Privacy	77
Choice of Treatment	78
Terminal Illness	79

UNIT 4 Office Interpersonal Relationships / 80	
Staff Arrangements	81
Intraoffice Communication	82
Career Entry	82
Employee Evaluation	83

CHAPTER 5

Medical Terminology 85

UNIT 1 Introduction to Medical Terminology / 86	
Breaking a Medical Term Apart	87
Spelling Medical Terminology	88
UNIT 2 Prefixes, Suffixes, Word Roots, and Combining Forms / 88	
Prefixes	88
Suffixes	90
Word Roots and Combining Forms	93
UNIT 3 Forming Plurals from Singulars / 94	
Forming Plurals	94
UNIT 4 Understanding and Building Medical Terms of Body Systems / 95	
Anatomical Position, Directional Terms, and Body Planes	95
Structure of the Human Body	97
The Integumentary System	97
The Musculoskeletal System	98
The Cardiovascular System	98
The Respiratory System	101
The Gastrointestinal (Digestive) System	103
The Urinary System	105
The Nervous System	106
The Endocrine System	107
The Special Senses	108
The Reproductive System	108
Common Abbreviations	111

SECTION 2

THE ADMINISTRATIVE MEDICAL ASSISTANT 113

CHAPTER 6

Oral and Written Communications 114

UNIT 1 Telephone Communications / 115	
Answering the Telephone	115
Documenting Telephone Messages	116
<i>Procedure 6-1: Perform a Telephone Screening</i>	117
Messaging Devices	117
<i>Procedure 6-2: Obtain a Telephone Message from a Phone Recording Device</i>	118

Common Types of Phone Calls	120
<i>Procedure 6-3: Telephone a Patient with Test Results</i>	122
Finding Phone Numbers	125
UNIT 2 Schedule Appointments / 126	
Appointment Strategies	126
<i>Procedure 6-4: Schedule Appointments</i>	127
Establishing a Matrix	129
Appointment Scheduling Strategies	131
Maintaining the Schedule	132
Scheduling Business Appointments	134
Adhering to a Realistic Schedule	135
Referral Appointments	136
<i>Procedure 6-5: Arrange a Referral Appointment</i>	137
Follow-Up Appointments	137
UNIT 3 Written Communications / 138	
Written Communication	138
<i>Procedure 6-6: Respond to Written Communication</i>	141
Preparing Written Communication	141
Composing a Business Letter	145
Mailable Standards	146
Selecting a Letter Style	148
Compose a Business Letter	148
<i>Procedure 6-7: Compose a Business Letter</i>	149
UNIT 4 Receiving and Sending Office Communications / 151	
Incoming Mail	151
Sorting Mail	152
Opening Mail	152
Processing Incoming Mail	152
Vacation Mail	153
Machinable Mail	153
Addressing Envelopes	153
Address Block Location	153
Completing Mailing	155
Stamp or Meter Mail	156
Mail Classifications	158
Special Mailing Services	159
Alternative Ways to Communicate	160
UNIT 5 Office Management Equipment / 165	
Calculator	166
<i>Procedure 6-8: Total Charges on a Calculator</i>	166
Copy Machine	167
<i>Procedure 6-9: Operate a Copy Machine</i>	167
Microfilm	168
Dictation-Transcription Machine	169
<i>Procedure 6-10: Operate a Transcriber</i>	170
The Computer	171
Printers	174
Computer Software	175
Important Factors in Selecting a Computer System	178
<i>Procedure 6-11: Operate an Office Computer</i>	178

CHAPTER 7**Facility and Records Management 181**

UNIT 1	Preparing for the Day / 182	
	Preparing for the Day	182
	<i>Procedure 7-1: Open the Office</i>	183
	The Receptionist	184
	<i>Procedure 7-2: Obtain New Patient Information</i>	188
	Closing the Office	188
	<i>Procedure 7-3: Close the Office</i>	188
UNIT 2	The Patient's Medical Record / 189	
	HIPAA and the Medical Record	190
	The Purpose of Records	191
	Parts of the Medical Record	191
	Dating, Correcting, and Maintaining the Chart	194
	Tracking Medical Records	194
	Call-Backs	195
	The Problem-Oriented Medical Record	195
UNIT 3	Filing / 199	
	Importance of Filing	200
	Filing Steps	200
	Finding a Missing Chart	201
	Filing Storage	203
	Filing Supplies	204
	Paperless Files	205
	Filing Systems	205
	Filing Alphabetically	206
	<i>Procedure 7-4: File Item(s) Alphabetically</i>	207
	<i>Procedure 7-5: Pull File Folder from Alphabetic Files</i>	208
	Filing Numerically	208
	<i>Procedure 7-6: File Item(s) Numerically</i>	209
	<i>Procedure 7-7: Pull File Folder from Numeric Files</i>	209
	Filing by Subject	209
	Using a Chronologic (Tickler) File	210
	Desktop Files	210
	Purging Files	211

CHAPTER 8**Collecting Fees 214**

UNIT 1	Paying for Medical Services / 215	
	Personal Data Sheet	215
	Payment Planning	217
	Credit Card Usage	218
UNIT 2	Bookkeeping Procedures / 218	
	Bookkeeping Terms	219
	<i>Procedure 8-1: Prepare a Patient Ledger Card</i>	221
	<i>Procedure 8-2: Record Charges and Credits</i>	221
	<i>Procedure 8-3: Generate an Itemized Statement</i>	222

	Bookkeeping	223
	Exceptions to Usual Procedures	223
	Pegboard System	224
	<i>Procedure 8-4: Process a Credit Balance and Refund</i>	225
UNIT 3	Billing and Collections / 226	
	Collecting Overdue Payments	228
	Advantageous Collection Opportunities	228
	Making the Collection Call	228
	Collection Letters	229
	<i>Procedure 8-5: Compose a Collection Letter</i>	230
	<i>Procedure 8-6: Post Non-Sufficient Funds (NSF) Checks and Collection Agency Payments</i>	232

CHAPTER 9**Health Care Coverage 235**

UNIT 1	Fundamentals of Managed Care / 236	
	Health Maintenance Organizations	237
	The Insurance Paper Trail	240
UNIT 2	Health Care Plans / 241	
	Commercial Health Insurance	242
	Managed Care Delivery Systems	243
	Consumer-Driven Health Plans (CDHPs)	244
	Government Health Plans	245
UNIT 3	Preparing Claims / 252	
	The Beginning of Claim Forms	253
	The History of Coding	253
	Use of Current ICD Codes	254
	Performing Coding Functions	254
	Identifying the Diagnosis	255
	Current Procedural Terminology Codes	257
	Completing the Claim Form	259
	<i>Procedure 9-1: Perform Procedural and Diagnostic Coding</i>	260
	Maintaining an Insurance Log	261
	<i>Procedure 9-2: Complete a Claim Form</i>	262
	Delinquent Claims	263
	Common Claim Errors	263
	Electronic Claim Filing	264
	Accepting Assignment	264
	Medicare Audit	264
	Reimbursement	265
	The Future of Insurance Claims	265
	Maintaining Currency	265

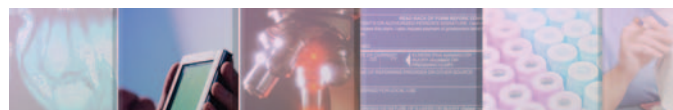

CHAPTER 10**Medical Office Management 270**

UNIT 1	Safety, Security, and Emergency Plans in the Medical Office / 271	
	A Safe, Healthy Environment Throughout the Medical Office	271

	General Office Safety	274
	Security in the Medical Office	276
UNIT 2	The Language of Banking / 277	
	Banking Terms	277
UNIT 3	Currency, Checks, and Petty Cash / 280	
	Currency	281
	Features of a Check	281
	Writing Checks	282
	<i>Procedure 10-1: Prepare a Check</i>	283
	Patients' Checks	284
	Endorsement	284
	Making Deposits	285
	<i>Procedure 10-2: Prepare a Deposit Slip</i>	285
	Deposit by Mail	286
	Reconciling Bank Statements	286
	Petty Cash and Other Accounts	286
	<i>Procedure 10-3: Reconcile a Bank Statement</i>	287
	<i>Procedure 10-4: Establish and Maintain a Petty Cash Fund</i>	288
UNIT 4	Employee, Salary, Benefits, and Tax Records / 288	
	Employee Requirements and Records	288
	Medical Office Requirements and Records	290
	Benefits	292
UNIT 5	General Management Duties / 294	
	Daily and Monthly Account Records	294
	Missed Appointments	295
	Office Policy Manual	295
	Office Procedure Manual	295
	HIPAA and Office Policy	295
	Office Liability Insurance	296
	Staff Meetings	296
	Practice Information Brochure	296
	Patient Refunds	297
	Equipment Maintenance and Supply Inventory	297
	<i>Procedure 10-5: Perform an Inventory of Supplies and Equipment</i>	298
	Responsibility for Decision Making	299
	Responsibilities to Employees	300
	Responsibility for the Facility	300
	<i>Procedure 10-6: Perform Routine Maintenance of Administrative and Clinical Equipment</i>	301
	Responsibilities to Physicians	301
	Physician's Professional Meetings	301
	Responsibility for Preparing for a Site Visit	302
	<i>Procedure 10-7: Manage a Physician's Professional Schedule and Travel</i>	302
	Preparing for an Insurance Site Review	303
	Preparing for Disaster	303
	Moving the Office	303
	Manager's Rewards	304

SECTION 3

STRUCTURE AND FUNCTION OF THE BODY 307

CHAPTER 11 Anatomy and Physiology of the Human Body 308

UNIT 1	Anatomic Descriptors and Fundamental Body Structure / 309	
	Anatomy and Physiology Defined	310
	Language of Medicine	310
	Anatomic Directional Terms	310
	Body Cavities and Organs	312
	The Cell	313
	Passing Molecules Through Cell Membranes	316
	Cellular Division	319
	Homeostasis	321
	Mutations and Traits	321
	Genetic and Congenital Disorders	322
	Discoveries in Human Genetics	327
	New Genetic Techniques	329
	Tissues	330
	Organs	333
	Systems	333
UNIT 2	The Nervous System / 335	
	Membrane Excitability	337
	Peripheral Nervous System and Spinal Cord	339
	Central Nervous System	341
	Diagnostic Tests	345
	Diseases and Disorders	346
UNIT 3	The Senses / 358	
	The Eye and the Sense of Sight	359
	Diseases and Disorders of the Eye	361
	The Ear and the Sense of Hearing	368
	Diagnostic Tests	369
	Diseases and Disorders of the Ear	370
	The Nose and the Sense of Smell	372
	Diseases and Disorders of the Nose	372
	The Tongue and the Sense of Taste	374
	Diseases and Disorders of the Mouth and Tongue	374
	The Skin and the Sense of Touch	375
UNIT 4	The Integumentary System / 375	
	Functions	376
	Structure of the Skin	377
	The Skin as a Diagnostic Testing Site	378
	Diseases and Disorders	378

UNIT 5	The Skeletal System / 391		Immunization	485
	Bone Structure	392	Diseases and Disorders	485
	Number of Bones	393	UNIT 10	The Digestive System / 503
	Functions of the Skeleton	393		The Mouth
	Spinal Column	394		The Esophagus
	The Skull	395		The Stomach
	The Rib Cage	396		The Small Intestine
	Long Bones	396		The Large Intestine
	Bones of the Hands and Feet	396		Diagnostic Examinations
	The Pelvic Girdle	396		Diseases and Disorders
	Joints	397	UNIT 11	The Urinary System / 526
	Fractures	398		The Kidneys
	Amputation	400		The Ureters
	Diagnostic Examinations	400		The Urinary Bladder
	Diseases and Disorders	402		The Urethra
	Replacing Bone and Joints	409		Dialysis
UNIT 6	The Muscular System / 410			Kidney Transplant
	Muscle Fuel	411		Diagnostic Examinations
	Functions of Muscle	412		Diseases and Disorders
	Muscle Growth	412	UNIT 12	The Endocrine System / 542
	Types of Muscle Tissue	412		Pituitary Gland
	Skeletal Muscle Action	413		Thyroid Gland
	Muscle Tone	413		Parathyroid Glands
	Muscle Attachment	414		Adrenal Glands (Suprarenal)
	Sheaths and Bursae	414		Pancreas
	Major Skeletal Muscles	414		Thymus Gland
	Muscle Strain and Cramps	417		Pineal Body
	Smooth Muscle Action	417		Gonads (Testes and Ovaries)
	Diseases and Disorders	417		Interrelationship of the Glands
UNIT 7	The Respiratory System / 419			Diagnostic Examinations
	The Pathway of Oxygen	420		Diseases and Disorders
	Respiration	423	UNIT 13	The Reproductive System / 558
	The Lung and the Pleura	424		Differentiation of Reproductive Organs
	The Muscles of Breathing	424		Male Reproductive Organs
	Diagnostic Examinations	425		Diagnostic Exams and Tests of the Male
	Diseases and Disorders	427		Reproductive System
UNIT 8	The Circulatory System / 439			Diseases and Disorders of the Male
	The Heart	440		Reproductive System
	The Blood Vessels	446		Female Reproductive Organs
	The Lymphatic System	449		Fertilization
	The Blood	451		Pregnancy
	Cardiovascular Tests	455		The Birth Process
	Diseases and Disorders	458		Infertility
UNIT 9	The Immune System / 474			Contraception
	Origin of Cells	475		Diagnostic Tests of the Female
	Organs of the Immune System	476		Reproductive System
	Cell Markers	477		Diseases and Disorders of the Female
	Lymphocytes	478		Reproductive System
	Complement System	480		Malignancy of the Female
	Cytokines	480		Reproductive Organs
	Immune Responses	481		Sexually Transmitted Diseases (STDs)

SECTION 4

THE CLINICAL MEDICAL ASSISTANT 599

CHAPTER 12

Preparing for Clinical Duties 600

UNIT 1 The Safety and Well-Being of Staff and Patients / 601

- Keeping the Entire Medical Facility Clean Guidelines for Preventing the Transfer of Disease 601
- Hand Washing Guidelines 605
- Basic Guidelines for Lab Safety 605
- Procedure 12-1: Hand Washing* 606

UNIT 2 Infection Control / 610

- Disease Prevention 611
- Disease Transmission 614
- Infection Control 619
- Care of Instruments 620
- Procedure 12-2: Wrap Items for Autoclave* 623
- Procedure 12-3: Perform Sterilization through Use of an Autoclave* 625

CHAPTER 13

Beginning the Patient's Record 627

UNIT 1 In-Person Screening / 628

- Screening 628
- Phone Screening 629
- In-Person Screening 629
- Conducting the In-Person Screening 631
- Procedure 13-1: Perform In-Person Screening* 632

UNIT 2 The Medical History / 633

- Medical History 633
- Obtaining a Patient History 636
- Procedure 13-2: Obtain and Record a Patient History* 637
- Patient Education 637
- After the History Is Completed 637

UNIT 3 Body Measurements and Vital Signs / 639

- Body Measurements 640
- Height and Weight 640
- Procedure 13-3: Measure Height on a Balance Beam Scale* 642
- Procedure 13-4: Weigh Patient on Balance Beam Scale* 643
- Vital Signs 645
- Temperature 645

- Procedure 13-5: Measure Oral Temperature with a Disposable Plastic Thermometer* 649
- Procedure 13-6: Measure Oral Temperature with an Electronic Thermometer* 651
- Procedure 13-7: Measure Rectal Temperature with an Electronic Thermometer* 652
- Procedure 13-8: Measure Axillary Temperature with an Electronic Thermometer* 653
- Procedure 13-9: Measure Core Body Temperature with an Infrared Tympanic Thermometer* 655
- Procedure 13-10: Measure Temperature with a Temporal Artery Thermometer* 656
- Pulse 658
- Procedure 13-11: Measure the Radial Pulse* 661
- Respiration 662
- Procedure 13-12: Measure the Apical Pulse* 663
- Temperature-Pulse-Respiration Ratio 664
- Blood Pressure 664
- Procedure 13-13: Measure Respirations* 665
- Procedure 13-14: Measure Blood Pressure* 670

CHAPTER 14

Physical Examinations and Assessment Procedures 674

UNIT 1 Procedures of the Eye and Ear / 675

- Eye and Ear Examination 675
- Procedure 14-1: Irrigate the Eye* 677
- Procedure 14-2: Irrigate the Ear* 678
- Procedure 14-3: Instill Ear Medication* 680
- Visual Acuity 681
- Procedure 14-4: Instill Eye Medication* 682
- Procedure 14-5: Screen Visual Acuity with a Snellen Chart* 684
- Procedure 14-6: Screen Visual Acuity with the Jaeger System* 685
- Procedure 14-7: Determine Color Vision Acuity by the Ishihara Method* 687
- Contrast Sensitivity Screening 688
- Auditory Acuity 688
- Hearing Tests 689

UNIT 2 Preparing for Examinations / 692

- Before the Examination 693
- Procedure 14-8: Prepare and Maintain Examination and Treatment Areas* 694
- Assisting the Patient 694
- Examination Positions 694
- Procedure 14-9: Assist the Patient to the Horizontal Recumbent Position* 695
- Procedure 14-10: Assist the Patient to the Prone Position* 696

	<i>Procedure 14-11: Assist the Patient to a Sims' Position</i>	697	Head Circumference	752
	<i>Procedure 14-12: Assist the Patient to a Knee-Chest Position</i>	698	<i>Procedure 14-21: Weigh an Infant</i>	752
	<i>Procedure 14-13: Assist the Patient to a Fowler's Position</i>	700	Chest Circumference	753
	<i>Procedure 14-14: Assist the Patient to a Lithotomy Position</i>	701	Recording Measurements	753
UNIT 3	The Physical Examination / 703		<i>Procedure 14-22: Measure Head Circumference</i>	753
	The Complete Physical Examination	704	Vision Screening	754
	Examination Techniques	705	<i>Procedure 14-23: Measure an Infant's Chest Circumference</i>	754
	Physical Examination Format	707	Hearing Screening	755
	After the Examination	714	<i>Procedure 14-24: Screen Pediatric Visual Acuity with a Modified Snellen Chart</i>	756
	The Diagnosis	714		
	Documentation of the Exam	716	CHAPTER 15	
	Patient Follow-Up	716	Specimen Collection and Laboratory Procedures 758	
	<i>Procedure 14-15: Prepare a Patient for and Assist with a Routine Physical Examination</i>	718		
UNIT 4	Special Examinations / 720		UNIT 1	The Microscope / 760
	The Pap Test	721		Parts of the Microscope
	After the Examination	726		<i>Procedure 15-1: Use a Microscope</i>
	<i>Procedure 14-16: Prepare the Patient for and Assist with a Gynecologic Examination and ThinPrep Pap Test</i>	726	UNIT 2	Capillary Blood Collection / 763
	Reporting Pap Test Results	728		Skin Puncture
	Other Procedures	728		<i>Procedure 15-2: Puncture Skin with a Sterile Lancet</i>
	Obstetrics Patients	729	UNIT 3	Venous Blood Collection / 766
	Estimating the Date of Delivery	729		Venipuncture
	Medical Assistant's Role	730		<i>Procedure 15-3: Obtain Venous Blood with the Butterfly Needle Method</i>
	Prenatal Visits	730		<i>Procedure 15-4: Obtain Venous Blood with a Sterile Needle and Syringe</i>
	Sigmoidoscopy	733		<i>Procedure 15-5: Obtain Venous Blood with a Vacuum Tube</i>
	Cleansing Enema	734	UNIT 4	Common Physician's Office Lab Diagnostic Tests / 780
	<i>Procedure 14-17: Assist with a Sigmoidoscopy</i>	735		Laboratory Classification and Regulation
	<i>Procedure 14-18: Administer a Disposable Cleansing Enema</i>	737		Hemoglobin and Hematocrit
	Proctologic Positioning, Instruments, and Procedures	738		<i>Procedure 15-6: Hemoglobin Determination Using a Hemoglobinometer</i>
UNIT 5	Pediatric Examinations and Procedures / 739			<i>Procedure 15-7: Determine Hematocrit (Hct) Using a Microhematocrit Centrifuge</i>
	The Pediatric Patient	739		Automation for Hematology Testing
	Failure to Thrive (FTT)	740		The WBC Differential
	Child Abuse	740		Erythrocyte Sedimentation Rate
	Well or Sick Child Appointments	742		Glucose Testing
	The Examination	744		<i>Procedure 15-8: Perform an Erythrocyte Sedimentation Rate (ESR)</i>
	Health Care Documentation	744		<i>Procedure 15-9: Screen Blood Sugar (Glucose) Level</i>
	Medical Assistant Responsibility	745		<i>Procedure 15-10: Perform Hemoglobin A1C (Glycosylated Hemoglobin) Screening</i>
	Assisting with the Pediatric Exam	745		Cholesterol Testing
	Examination Preparation	746		<i>Procedure 15-11: Perform a Cholesterol Screening</i>
	Pediatric Measurements	746		<i>Procedure 15-12: Screen and Follow Up Blood Test Results</i>
	Measuring Height	746		
	<i>Procedure 14-19: Measure Recumbent Length of Infant</i>	750		
	<i>Procedure 14-20: Measure Height</i>	751		
	Weighing the Pediatric Patient	751		

Immunology	797	<i>Procedure 16-3: Obtain a Standard 12-Lead Electrocardiogram</i>	846
<i>Procedure 15-13: Perform a Screening for Infectious Mononucleosis</i>	798	Interference	848
PKU Testing	799	Standardization	851
Urine Specimens	800	Stress Tests	853
<i>Procedure 15-14: Instruct a Patient on the Collection of a Clean-Catch Midstream Urine Specimen</i>	802	Holter Monitor	855
Physical Urinalysis	802	<i>Procedure 16-4: Holter Monitoring</i>	856
Chemical Urinalysis	804	Other Cardiovascular Equipment	856
Microscopic Examination of Urine	807	UNIT 3 Diagnostic Procedures / 857	
<i>Procedure 15-15: Test Urine with Multistix® 10 SG</i>	808	Vital Capacity Tests	858
<i>Procedure 15-16: Obtain Urine Sediment for Microscopic Examination</i>	810	Sonographic Studies	858
<i>Procedure 15-17: Perform Screening for Pregnancy</i>	810	<i>Procedure 16-5: Perform Spirometry Testing</i>	859
<i>Procedure 15-18: Screen and Follow Up Urine Test Results</i>	811	Magnetic Resonance Imaging (MRI)	860
Collection of Specimens for Substance Abuse Analysis and Chain of Custody	812	UNIT 4 Diagnostic Radiologic Examinations / 861	
Fecal (Stool) Specimens	812	Radiologic Studies	862
<i>Procedure 15-19: Instruct a Patient to Collect a Stool Specimen</i>	814	CHAPTER 17	
<i>Procedure 15-20: Perform a Hemocult Test</i>	816	Minor Surgery in the Medical Office 871	
Sputum Specimens	816	UNIT 1 Instruments / 872	
<i>Procedure 15-21: Instruct a Patient to Collect a Sputum Specimen</i>	817	Instrument Care	872
UNIT 5 Bacterial Specimen Collection, Cultures, and Diagnostic Tests / 818		Instrument Components	872
Bacterial Specimen Collection	819	Instrument Classification	873
<i>Procedure 15-22: Perform a Wound Collection for Microbiologic Testing</i>	819	UNIT 2 Preoperative Preparations / 877	
Gram Staining and Microbiologic Smears	821	Preparing for Surgery	878
Morphologic Shapes	822	<i>Procedure 17-1: Sterile Tray Set-up</i>	879
<i>Procedure 15-23: Obtain a Throat Culture</i>	826	Preparing the Patient	884
<i>Procedure 15-24: Perform a Rapid Strep Screening Test for Group A Strep</i>	826	Skin Preparation	884
UNIT 6 Other Frequently Ordered Laboratory Tests and Normal Values / 827		<i>Procedure 17-2: Prepare Skin for Minor Surgery</i>	885
Screening Test Results	828	UNIT 3 Assisting with Minor Surgical Procedures / 886	
Common Tests and Normal Values	828	General Information	887
Panels	830	Sterile Gloves	888
CHAPTER 16		<i>Procedure 17-3: Put on Sterile Gloves</i>	889
Diagnostic Tests, X-Rays, and Procedures 832		Anesthetics	892
UNIT 1 Diagnostic Tests / 833		Assisting the Physician	892
Skin Tests	833	Suture Material	892
<i>Procedure 16-1: Perform a Scratch Test</i>	837	<i>Procedure 17-4: Assisting with Minor Surgery</i>	893
<i>Procedure 16-2: Perform a Patch Test</i>	839	<i>Procedure 17-5: Assisting with Suturing a Laceration</i>	894
UNIT 2 Cardiology Procedures / 840		Postoperative Instructions	895
Path of Electrical Impulses	842	Suture Removal	895
Routine Electrocardiograph Leads	843	<i>Procedure 17-6: Remove Sutures</i>	896
		Protective Bandages	898
		CHAPTER 18	
		Assisting with Medications 900	
		UNIT 1 Prescription and Nonprescription Medications / 901	
		Commonly Prescribed Medications	901
		Pharmaceutical References	903

Drug Categories and Classifications	904	Respiratory Emergencies	961
Drug Actions	904	<i>Procedure 19-1: Perform an Abdominal Thrust on an Adult Victim with an Obstructed Airway</i>	964
Drug Forms	904	Cardiopulmonary Resuscitation (CPR)	966
The Medication Order	905	CPR and Disease Transmission	966
Writing Prescriptions	905	<i>Procedure 19-2: Perform Adult Cardiopulmonary Resuscitation (CPR)</i>	969
Controlled Substances	907	CPR for Children and Infants	972
Recording Medications	910	<i>Procedure 19-3: Perform Cardiopulmonary Resuscitation (CPR) for Children</i>	973
Calculations	912	UNIT 3 First Aid in Accidents and Injuries / 975	
Storing Medications	912	Sudden Illnesses and Injuries	976
UNIT 2 Methods of Administering Medications / 914		Burns	977
Administering Medication	914	First Aid for Common Injuries	980
Routes of Administration	916	Wounds	983
<i>Procedure 18-1: Obtain and Administer Oral Medication</i>	917	<i>Procedure 19-4: Clean Wound Areas</i>	984
Considerations of Drug Action	920	<i>Procedure 19-5: Apply a Recurrent Turn Bandage to a Finger</i>	985
UNIT 3 Injections and Immunizations / 921		<i>Procedure 19-6: Apply a Bandage in an Open or Closed Spiral</i>	986
Injections	922	<i>Procedure 19-7: Apply a Figure-Eight Bandage to a Hand and Wrist</i>	987
<i>Procedure 18-2: Withdraw Medication from an Ampule</i>	924	<i>Procedure 19-8: Apply a Cravat Bandage to Forehead, Ear, or Eyes</i>	988
<i>Procedure 18-3: Withdraw Medication from a Vial</i>	925	<i>Procedure 19-9: Apply a Triangular Bandage to the Head</i>	989
Administering Injections	927	UNIT 4 Recovering Function and Mobility / 990	
<i>Procedure 18-4: Reconstitute a Powder Medication</i>	928	Indications for Mobility Devices	990
<i>Procedure 18-5: Administer an Intradermal Injection</i>	930	<i>Procedure 19-10: Apply an Arm Sling</i>	992
<i>Procedure 18-6: Administer a Subcutaneous Injection</i>	933	<i>Procedure 19-11: Use a Cane</i>	993
<i>Procedure 18-7: Administer an Intramuscular Injection</i>	934	<i>Procedure 19-12: Use Crutches</i>	995
<i>Procedure 18-8: Administer an Intramuscular Injection by the Z-Track Method</i>	935	<i>Procedure 19-13: Use a Walker</i>	996
Administering Injections to Infants and Small Children	936	<i>Procedure 19-14: Assist a Patient from a Wheelchair to an Examination Table</i>	997
Principles of IV Therapy	937	<i>Procedure 19-15: Assist a Patient from an Examination Table to a Wheelchair</i>	999
Preparing and Injecting Insulin	940	Safety at Home	1000
Immunity	940		
Types of Vaccines	940		
Immunization Schedules	941		
Disease Protection	941		

CHAPTER 19
Emergencies, Acute Illness, Accidents, and Recovery 951

UNIT 1 Managing Emergencies in the Medical Office / 952	
Emergency Provisions in the Medical Office	953
Documenting Emergency Procedures	954
Emergency Services	954
UNIT 2 Acute Illness / 955	
Recognize and Respond to an Emergency	956
Distinguishing Severity of Illness	956

SECTION 5

BEHAVIORS AND HEALTH 1003

CHAPTER 20
Behaviors Influencing Health 1004

UNIT 1 Nutrition, Exercise, and Weight Control / 1005	
Nutrition	1006
Food Labels	1015
Weight Control	1017

Diets	1018
Exercise	1020
Healthy Spirit	1020
Sleep	1020
UNIT 2 Habit-Forming Substances / 1023	
Types of Habit-Forming Substances	1024
The Disease of Dependency	1024
Alcohol	1024
Tobacco	1026
Marijuana	1027
Stimulants	1028
Opiates	1030
Injection Drug Use	1033
Hallucinogens, Dissociative Drugs, and Club Drugs	1034
Depressants	1034
Patient Care	1035
UNIT 3 Related Therapies / 1036	
Alternatives to the Traditional Medical Model	1036
Increased Popularity of Related Medical Therapies	1037
Foods	1038
Herbal Products and Dietary Supplements	1039
Related Therapies	1040

SECTION 6

EMPLOYABILITY SKILLS 1049

CHAPTER 21 Explore, Enter, and Succeed in Employment 1050

UNIT 1 Externship / 1051	
Defining the Purpose	1051
Externship Policy	1051
Selecting Externship Sites	1051
Externship Objectives	1052
Externship Agreements	1052
Planning for Externship Experiences	1052
Externship Evaluation	1054

UNIT 2 The Job Search / 1056	
The Resumé	1057
<i>Procedure 21-1: Prepare a Resumé</i>	1058
The Cover Letter	1060
Classified Advertisements	1061
Public Employment Services	1061
Private Employment Agencies	1062
Other Contacts	1062
UNIT 3 Career Entry and Success / 1062	
Career Entry	1063
Application Forms	1063
<i>Procedure 21-2: Complete a Job Application</i>	1065
The Interview	1065
What Employers Want Most in Employees	1068
<i>Procedure 21-3: Write an Interview Follow-up Letter</i>	1069
The Job Description	1070
The Employee Evaluation and Review Advancement	1071
Terminating Employment	1073
Employee Records	1074
Summary	1074
A Final Note	1075

APPENDIX A Medical Assistant Role Delineation Chart 1077

APPENDIX B Certified Medical Assistant (CMA) Certification Examination Outline 1078

APPENDIX C Registered Medical Assistant (RMA) Certification Examination Outline 1080

APPENDIX D Certified Medical Administrative Specialist (CMAS) Certification Examination Outline 1082

APPENDIX E Measurements and Abbreviations 1083

Glossary / 1089
Spanish Language Glossary / 1125
Index / 1155

LIST OF PROCEDURES

- Procedure 6-1: Perform a Telephone Screening / 117
Procedure 6-2: Obtain a Telephone Message from a Phone Recording Device / 118
Procedure 6-3: Telephone a Patient with Test Results / 122
Procedure 6-4: Schedule Appointments / 127
Procedure 6-5: Arrange a Referral Appointment / 137
Procedure 6-6: Respond to Written Communication / 141
Procedure 6-7: Compose a Business Letter / 149
Procedure 6-8: Total Charges on a Calculator / 166
Procedure 6-9: Operate a Copy Machine / 167
Procedure 6-10: Operate a Transcriber / 170
Procedure 6-11: Operate an Office Computer / 178
- Procedure 7-1: Open the Office / 183
Procedure 7-2: Obtain New Patient Information / 188
Procedure 7-3: Close the Office / 188
Procedure 7-4: File Item(s) Alphabetically / 207
Procedure 7-5: Pull File Folder from Alphabetic Files / 208
Procedure 7-6: File Item(s) Numerically / 209
Procedure 7-7: Pull File Folder from Numeric Files / 209
- Procedure 8-1: Prepare a Patient Ledger Card / 221
Procedure 8-2: Record Charges and Credits / 221
Procedure 8-3: Generate an Itemized Statement / 222
Procedure 8-4: Process a Credit Balance and Refund / 225
Procedure 8-5: Compose a Collection Letter / 230
Procedure 8-6: Post Non-Sufficient Funds (NSF) Checks and Collection Agency Payments / 232
- Procedure 9-1: Perform Procedural and Diagnostic Coding / 260
Procedure 9-2: Complete a Claim Form / 262
- Procedure 10-1: Prepare a Check / 283
Procedure 10-2: Prepare a Deposit Slip / 285
Procedure 10-3: Reconcile a Bank Statement / 287
Procedure 10-4: Establish and Maintain a Petty Cash Fund / 288
Procedure 10-5: Perform an Inventory of Supplies and Equipment / 298
Procedure 10-6: Perform Routine Maintenance of Administrative and Clinical Equipment / 301
Procedure 10-7: Manage a Physician's Professional Schedule and Travel / 302
- Procedure 12-1: Hand Washing / 606
Procedure 12-2: Wrap Items for Autoclave / 623
Procedure 12-3: Perform Sterilization through Use of an Autoclave / 625
- Procedure 13-1: Perform In-Person Screening / 632
Procedure 13-2: Obtain and Record a Patient History / 637
Procedure 13-3: Measure Height on a Balance Beam Scale / 642
Procedure 13-4: Weigh Patient on Balance Beam Scale / 643
Procedure 13-5: Measure Oral Temperature with a Disposable Plastic Thermometer / 649
Procedure 13-6: Measure Oral Temperature with an Electronic Thermometer / 651
Procedure 13-7: Measure Rectal Temperature with an Electronic Thermometer / 652
Procedure 13-8: Measure Axillary Temperature with an Electronic Thermometer / 653
Procedure 13-9: Measure Core Body Temperature with an Infrared Tympanic Thermometer / 655
Procedure 13-10: Measure Temperature with a Temporal Artery Thermometer / 656
Procedure 13-11: Measure the Radial Pulse / 661
Procedure 13-12: Measure the Apical Pulse / 663

xviii LIST OF PROCEDURES

Procedure 13-13: Measure Respirations / 665
Procedure 13-14: Measure Blood Pressure / 670

Procedure 14-1: Irrigate the Eye / 677
Procedure 14-2: Irrigate the Ear / 678
Procedure 14-3: Instill Ear Medication / 680
Procedure 14-4: Instill Eye Medication / 682
Procedure 14-5: Screen Visual Acuity with a Snellen Chart / 684
Procedure 14-6: Screen Visual Acuity with the Jaeger System / 685
Procedure 14-7: Determine Color Vision Acuity by the Ishihara Method / 687
Procedure 14-8: Prepare and Maintain Examination and Treatment Areas / 694
Procedure 14-9: Assist the Patient to the Horizontal Recumbent Position / 695
Procedure 14-10: Assist the Patient to the Prone Position / 696
Procedure 14-11: Assist the Patient to a Sims' Position / 697
Procedure 14-12: Assist the Patient to a Knee-Chest Position / 698
Procedure 14-13: Assist the Patient to a Fowler's Position / 700
Procedure 14-14: Assist the Patient to a Lithotomy Position / 701
Procedure 14-15: Prepare a Patient for and Assist with a Routine Physical Examination / 718
Procedure 14-16: Prepare the Patient for and Assist with a Gynecologic Examination and ThinPrep Pap Test / 726
Procedure 14-17: Assist with a Sigmoidoscopy / 735
Procedure 14-18: Administer a Disposable Cleansing Enema / 737
Procedure 14-19: Measure Recumbent Length of an Infant / 750
Procedure 14-20: Measure Height / 751
Procedure 14-21: Weigh an Infant / 752
Procedure 14-22: Measure Head Circumference / 753
Procedure 14-23: Measure an Infant's Chest Circumference / 754
Procedure 14-24: Screen Pediatric Visual Acuity with a Modified Snellen Chart / 756

Procedure 15-1: Use a Microscope / 762
Procedure 15-2: Puncture Skin with a Sterile Lancet / 765

Procedure 15-3: Obtain Venous Blood with the Butterfly Needle Method / 770
Procedure 15-4: Obtain Venous Blood with a Sterile Needle and Syringe / 770
Procedure 15-5: Obtain Venous Blood with a Vacuum Tube / 775
Procedure 15-6: Hemoglobin Determination Using a Hemoglobinometer / 784
Procedure 15-7: Determine Hematocrit (Hct) Using a Microhematocrit Centrifuge / 786
Procedure 15-8: Perform an Erythrocyte Sedimentation Rate (ESR) / 792
Procedure 15-9: Screen Blood Sugar (Glucose) Level / 793
Procedure 15-10: Perform Hemoglobin A1C (Glycosylated Hemoglobin) Screening / 795
Procedure 15-11: Perform a Cholesterol Screening / 796
Procedure 15-12: Screen and Follow Up Blood Test Results / 797
Procedure 15-13: Perform a Screening for Infectious Mononucleosis / 798
Procedure 15-14: Instruct a Patient on the Collection of a Clean-Catch Midstream Urine Specimen / 802
Procedure 15-15: Test Urine with Multistix® 10 SG / 808
Procedure 15-16: Obtain Urine Sediment for Microscopic Examination / 810
Procedure 15-17: Perform Screening for Pregnancy / 810
Procedure 15-18: Screen and Follow Up Urine Test Results / 811
Procedure 15-19: Instruct a Patient to Collect a Stool Specimen / 814
Procedure 15-20: Perform a Hemocult Test / 816
Procedure 15-21: Instruct a Patient to Collect a Sputum Specimen / 817
Procedure 15-22: Perform a Wound Collection for Microbiologic Testing / 819
Procedure 15-23: Obtain a Throat Culture / 826
Procedure 15-24: Perform a Rapid Strep Screening Test for Group A Strep / 826

Procedure 16-1: Perform a Scratch Test / 837
Procedure 16-2: Perform a Patch Test / 839
Procedure 16-3: Obtain a Standard 12-Lead Electrocardiogram / 846
Procedure 16-4: Holter Monitoring / 856
Procedure 16-5: Perform Spirometry Testing / 859

- Procedure 17-1: Sterile Tray Set-up / 879
Procedure 17-2: Prepare Skin for Minor Surgery / 885
Procedure 17-3: Put on Sterile Gloves / 889
Procedure 17-4: Assisting with Minor Surgery / 893
Procedure 17-5: Assisting with Suturing a Laceration / 894
Procedure 17-6: Remove Sutures / 896
- Procedure 18-1: Obtain and Administer Oral Medication / 917
Procedure 18-2: Withdraw Medication from an Ampule / 924
Procedure 18-3: Withdraw Medication from a Vial / 925
Procedure 18-4: Reconstitute a Powder Medication / 928
Procedure 18-5: Administer an Intradermal Injection / 930
Procedure 18-6: Administer a Subcutaneous Injection / 933
Procedure 18-7: Administer an Intramuscular Injection / 934
Procedure 18-8: Administer an Intramuscular Injection by the Z-Track Method / 935
- Procedure 19-1: Perform an Abdominal Thrust on an Adult Victim with an Obstructed Airway / 964
Procedure 19-2: Perform Adult Cardiopulmonary Resuscitation (CPR) / 969
Procedure 19-3: Perform Cardiopulmonary Resuscitation (CPR) for Children / 973
Procedure 19-4: Clean Wound Areas / 984
Procedure 19-5: Apply a Recurrent Turn Bandage to a Finger / 985
Procedure 19-6: Apply a Bandage in an Open or Closed Spiral / 986
Procedure 19-7: Apply a Figure-Eight Bandage to a Hand and Wrist / 987
Procedure 19-8: Apply a Cravat Bandage to Forehead, Ear, or Eyes / 988
Procedure 19-9: Apply a Triangular Bandage to the Head / 989
Procedure 19-10: Apply an Arm Sling / 992
Procedure 19-11: Use a Cane / 993
Procedure 19-12: Use Crutches / 995
Procedure 19-13: Use a Walker / 996
Procedure 19-14: Assist a Patient from a Wheelchair to an Examination Table / 997
Procedure 19-15: Assist a Patient from an Examination Table to a Wheelchair / 999
- Procedure 21-1: Prepare a Resumé / 1058
Procedure 21-2: Complete a Job Application / 1065
Procedure 21-3: Write an Interview Follow-up Letter / 1069
